RE-REVIEW

		25X1	
	On 11 April, 12 x 132-mm rocket launchers, and 25 trucks occupied by about 600 troops were detrained in Jueterbog. The unit left for the barracks installations in Jueterbog II, the occupation of which		
	source estimated at 1,500 troops.5		
2.	At about 9 a.m., on 21 March, 18 x 57-mm AT guns, trucks	25X1	
	and 150 troops who wore red-bordered black epaulets were entrained at the Jueterbog freight station.	25 X	
ı.	Comment.	25X	
	units of the 6th Gds Tank Div, which returned to their Wittenberg post		
	from advanced combat practice firing in the Nerder-Markendorf training area, with the 20 JS-1 tanks observed on 7 April belonging to the 78th		
	Gds Hv Tank SP Regt. Some of these tanks were again entrained on 16 April in Wittenberg.		
2.	Comment. a shipment of the	25X	
	9th Mecz Div, possibly AAA units, which returned from firing practice.	25X	
3.	Comment. As the motor vehicle observed belong to the		
	oth Gds Tank Div, this train presumably was shunted between the Jueterbog and Forst Zinna railroad stations. See Comment 1.	25X	
4.	Comments of the 1989	25 X	
	Engr En of the 14th Gds Mecz Div stationed in the Fuchsberg Kasezne were entrained. No indications are for a transfer to Brandenburg; it is		
	rather believed that the engineer unit moved to the Vittenberg area for		
	practices on the Elbe River. In addition to the engineer regiment, the		
	signal battalion, the motorcycle battalion and the motor transport battalion of the 14th Gds Mecz Div are carried in the Fuchsberg Kaserne.		
5。	Comment. The shipment cannot be identified. The rocket launcher unit may have gone to Jueterbog for advanced combat firing practice.	25X1
